Puzzi 30/4

Kärcher's all-new Puzzi 30/4 makes carpet and upholstery cleaning easier and more productive. Using the proven spray-extraction method but with the added advantage of Kärcher's revolutionary flexible suction tool, the 30/4 deep cleans carpets and leaves only a market-leading 9% residual moisture. This means that carpets and upholstery are left almost completely dry, reducing the risk of resoling and enabling cleaned areas to be used again very quickly. The 30/4 has a very small footprint to make storage and transportation easy, and to enable use in confined spaces. The new removable dirty tank makes emptying and refilling easy and safe.

Check our website for more details or phone us and ask.

1.101-123.0.

£1317.50

SGV6/5 Steam and Vac

The SGV 6/5 uses steam pressurised to 6 bar and a powerful wet & dry vacuum function to ensure hygiene-critical environments like kitchens, bathrooms, restaurants, hospitals and care homes are kept hygienically clean with minimal operator effort. The pressurised steam easily cuts through grease, fat and dirt, and the vacuum instantly dries the area being cleaned. The SGV's small footprint, high handle and large wheels make it easy to manoeuvre in tight spaces. A 4m suction hose and water/steam and vacuum controls built in to the handle mean that the machine can often be left outside the room being cleaned. With short heating up times and all accessorised kept close to hand, the SGV combines superb cleaning performance with high convenience.

CLEANING MACHINES

SGV8/5 steam and Vac

The SGV 8/5 uses steam pressurised to 8 bar and a powerful wet & dry vacuum function to ensure hygiene-critical environments like kitchens, bathrooms, restaurants, hospitals and care homes are kept hygienically clean with minimal operator effort. The pressurised steam easily cuts through grease, fat and dirt, and the vacuum instantly dries the area being cleaned. The SGV 8/5's unique self-clean function ensures the machine itself is fully cleaned after each use and the detergent function is ideal for deep cleaning of large areas like floors, or where a shine or fragrance is preferred. The SGV's small footprint, high handle and large wheels make it easy to manoeuvre in tight spaces. A 4m suction hose and water/steam and vacuum controls built in to the handle mean that the machine can often be left outside the room being cleaned. With short heating up times and all accessorised kept close to hand, the SGV combines superb cleaning performance with high convenience.
